RIEM

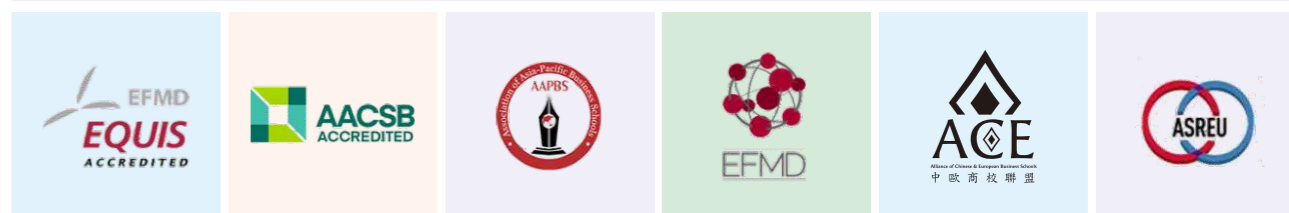

Our University: SWUFE

SWUFE is located in Chengdu, the engine-city for the development of Western China and the fourth-largest aviation hub in China.

Southwestern University of Finance and Economics (SWUFE) is a national key university directly under the Ministry of Education for the construction of the national "211 Project" and "985 Project" advantage discipline innovation platform, and the first batch of "double first-class" construction universities in China. SWUFE is a top university specialized in finance, economics, and business. It is known for its entrepreneurial character and unremitting endeavours to address the needs of the people and society through academics, research and alumni.

International Accreditation and International Memberships

Research Institute of Economics and Management (RIEM)

The Research Institute of Economics and Management (RIEM) at SWUFE was established in 2006. Dedicated to high-quality teaching and research in economics, finance, and management, RIEM's goal is to become an internationally-acknowledged research center as well as a leading Chinese think tank. RIEM is a highly internationalized institute, All of RIEM's faculty members hold doctoral degrees from well-established universities all over the world, including the U.S., the U.K., Australia, Canada, France, and Singapore. Their publications have appeared in respected international journals. All the courses in RIEM are taught in English. Currently there are more than 900 students studying at RIEM, including 15% international students come from all over the world.

RIEM frequently invites scholars from various countries for teaching and research collaboration. Invited speakers make presentations on their working papers at RIEM's weekly seminar series. Additionally, every year RIEM hosts several international conferences related to different subjects in the fields of economics and management. We will strive to make the RIEM a top teaching and research institution featuring world-class academic research and nationally-leading policy studies with great social impact and public trust.

Why RIEM?

Leading Programs in Economics, Finance and Management:

RIEM offers high-quality teaching and research in economics, finance, management, and accounting.

Excellent Faculty:

All RIEM faculty members hold doctoral degrees from well-renowned overseas universities, including the U.S., the U.K., Canada, and Australia. RIEM frequently invites scholars from different countries for teaching and joint research. Every year, RIEM holds several international conferences and academic symposia.

Outstanding Undergraduate and Graduate Programs:

RIEM offers bachelor, master, and doctoral degrees for both Chinese and international students. Please check with the International Office to see what degrees are available (and what their respective requirements are).

Living in Chengdu:

As a RIEM student, you'll have the opportunity to live in Chengdu, the capital of Sichuan province. Although Chengdu is a large city, it still highly values traditional Chinese culture. There are a variety of sites to see and delicious foods to taste!

Curriculum Design:

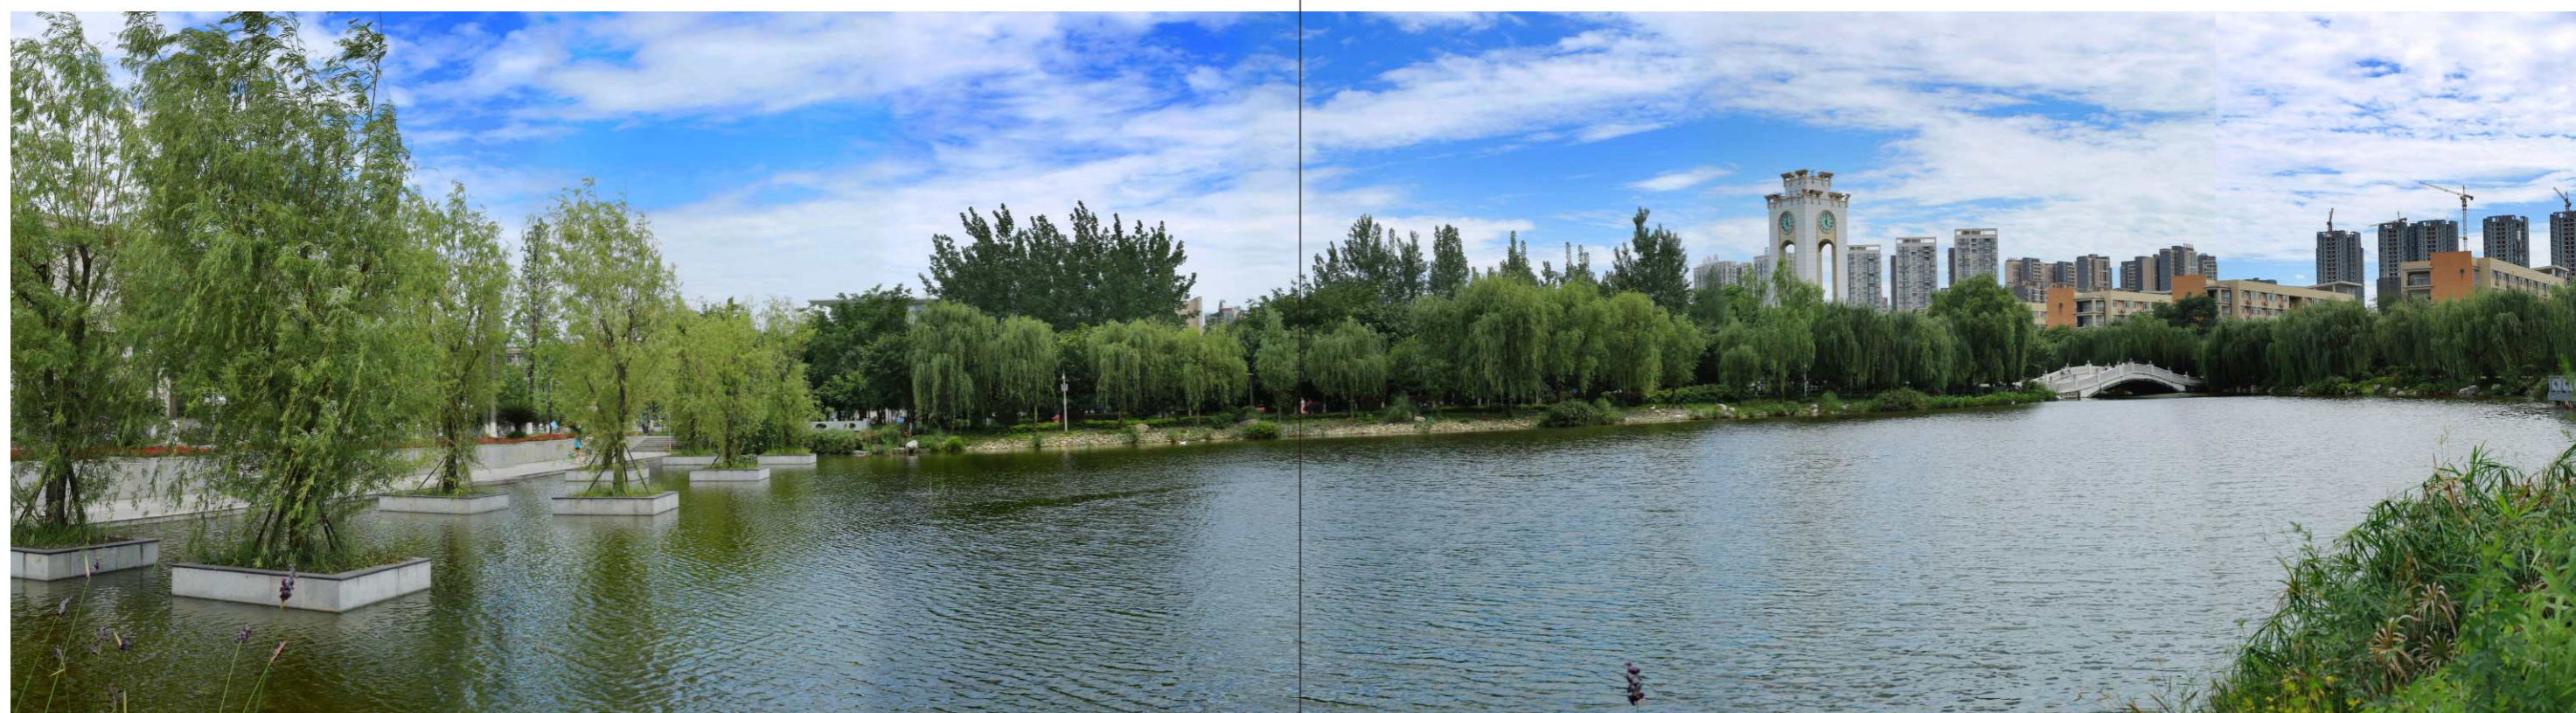

Rather than focusing solely on academic or industrial perspectives, RIEM combines the two in order to provide its students with the best learning experience (and environment) possible.

Full English Course:

RIEM offers you the opportunity to complete a degree in English that adheres to the highest international standards. This will enable you to be competitive in the job market as well as make new friends from all over the world.

Strong Alumni Network:

SWUFE has one of the strongest alumni networks in China. As a RIEM student, you will become a part of the legacy.

Department and Research Center

The RIEM has a complete discipline setting and talent training system, including undergraduate, master, doctoral and postdoctoral mobile stations, with a total of 15 full English programs. It consists of three departments, two research centers and multiple research platforms.

Departments

- Department of Applied Economics
- Department of Finance and Accounting
- Department of Business Administration

Research Centers

- Survey and Research Center for China Household Finance

Exchange Students to SWUFE

RIEM has entered into an extensive partnership with leading universities in North America, Europe, Singapore and other parts of the world, which provides students with a variety of overseas study and international exchange opportunities to access to cutting edge knowledge and to expand their global perspectives. In addition, since its foundation, RIEM has a long standing tradition of attracting partner universities' students to pursue exchange in RIEM and other international students to pursue B.A., M.A., and Ph.D. degrees in RIEM, in which international students learn alongside Chinese peers in an environment of cross cultural dialogue.

SWUFE welcomes international exchange students seeking to study at RIEM, SWUFE from our partner universities. Students need to be nominated by their home universities to attend our Student Exchange Program for either one semester or one academic year beginning in either the Spring or the Fall Semester. The exchange programs including undergraduate level and graduate level. Exchange students can choose 4-6 courses each semester. All English courses are open to exchange students, plus Chinese Mandarin Course.

Summer Camp

Do not have enough time to stay a full semester in China? Why not try our special Summer Exchange Program!

This program aims to bring an opportunity to experience the cultural diversity and grandeur of fast growing country in the world in two weeks. This program is not only an academic in-class learning experience but also a diversified field course. The program is a perfect balance among study, activities, visits and trips. While it is necessary to learn subjects in a classroom setting, our program helps you apply it to the everyday environment in China. We believe, "1,000 books read is equal to 1,000 miles traveled".

Courses in Summer

The summer semester usually starts from the first Monday in July, and lasts for two weeks. RIEM offers 3 or 4 elective courses taught by visiting professors from oversea universities in each summer.

The course offering will depend on the availability of the visiting professors, which will include but not limited to the list as below:

- Behavioral Finance
- Multinational Corporation Finance
- Strategic Behavior
- Economic Comparison between China and US
- Capital Markets in China
- Cross-cultural Management
- Applied Econometrics
- Financial Markets and Institutions
- Chinese Economy
- Chinese Language

Special Culture Events

- One day city tour in Chengdu Research Base of Giant Panda Breeding, Wuhou Temple, Dufu's Thatched Cottage, Jinli Ancient Street
- Field trip in local company
- Optional Choices: Giant Buddha, Mount E'mei

*Course schedule may be adjusted according to the needs of the program. Please check with our International Student Office for the most up to date information.
